NO	TITLE
1	Investigations of multi-carrier pulse width modulation schemes for diode free neutral point clamped multilevel inverters
2	The best land selection using simple additive weighting
3	SOA-based Multiwavelength Fiber Laser Assisted by Intensity Dependent Transmission Mechanism
4	DDT-based chaotic interleaver aided cooperative OFDM system
5	Food Waste Co-Digestion with Microwave Pre-Treated Sewage Sludge to Enhance Biogas Production Through Anaerobic Digestion
6	Biological performance of integrated fixed film activated sludge (IFAS) process
7	A Framework for experience based user authentication technique for minimizing risk of brute-force attacks
8	Context-Aware ontology and web services discovery for distributed embedded real-time systems
9	The effect of corporate social responsibility practices on brand equity: An examination of malaysia's top 100 brands
10	Oil abundance and human capital in Malaysia: A multivariate cointegration analysis
11	Complex extreme sea levels prediction analysis: Karachi coast case study
12	Effect of sugar palm nanofibrillated celluloseconcentrations on morphological, mechanical andphysical properties of biodegradable films
13	Full bridge LLC resonant three-phase interleaved multi converter for HV applications
14	The good salted egg using AHP
15	Effect of deep-level defect density of the absorber layer and n/i interface in perovskite solar cells by SCAPS-1D
16	A new higher-order RBF-FD scheme with optimal variable shape parameter for partial differential equation
17	An AN-GA controlled SEPIC converter for photovoltaic grid integration
18	Numerical modelling of flow characteristics over sharp crested triangular hump
19	A review of vegetation encroachment detection in power transmission lines using optical sensing satellite imagery
20	Partial discharge detection device using ultrasonic sensor on medium voltage XLPE cable
21	Improving faceted search results for web-based information exploration
22	Treatment recommendation system
23	NocturnOWL: Sleep-monitoring Virtual Pet Mobile Application
24	Feasibility of Internet of Things application for real-time healthcare for Malaysian pilgrims
25	Numerical study of composite fiberglass cross arms under statics loading and improvement with sleeve installation
26	The Relation of Compression Strength with Modulus of Rupture and UPV of Concrete Containing M-sand as Fine Aggregate
27	Mobile robot for radiation mapping in indoor environment
28	Transforming health care big data implementing through Aprior-Mapreduce
29	Game-Based Learning in Requirements Engineering: An Overview
30	Power quality assessment of grid-connected PV system in compliance with the recent integration requirements

31	A Survey on Deception Techniques for Securing Web Application
32	Using GIS, remote sensing, and machine learning to highlight the correlation between the land-use/land-cover changes and flash-flood potential
33	Techno-economic analysis of CO2 capture technologies in offshore natural gas field: Implications to carbon capture and storage in Malaysia
34	A fuzzy-rule-based PV inverter controller to enhance the quality of solar power supply: Experimental test and validation
35	The effect of holding time on the mechanical and physical properties of titania-wollastonite-hydroxyapatite composites
36	Postgraduate students' motivation for mooc enrollment
37	Role of social sciences in fostering renewable energy technologies development
38	A review on durability and degradation of glass fiber reinforced polymer structures
39	Pareto optimal approach in Multi-Objective Chaotic Mutation Immune Evolutionary Programming (MOCMIEP) for optimal Distributed Generation Photovoltaic (DGPV) integration in power syste
40	Smart City: The state of the art, definitions, characteristics and dimensions
41	Multi-objective grey wolf optimizer for optimal design of switching matrix for shaded pv array dynamic reconfiguration
42	Endure: Augmented reality fitness mobile application
43	Landslides susceptibility assessment and risk mapping using logistic regression and geographical information system
44	Exploring specific learning difficulties in primary schools: An empirical research
45	Enterprise architecture adoption model among public sector organisations in Malaysia
46	A generic evaluation framework of smart manufacturing systems
47	Effect of defect density and energy level mismatch on the performance of perovskite solar cells by numerical simulation
48	Evaluation study outcome of augmented reality technology for solving engineering problems in UNITEN: Augmented reality technology for solving engineering problems in UNITEN
49	Towards societal engagement: Building human resilience by engaging communication about flood prone areas
50	Digital entrepreneurship literacy model for rural youth entrepreneurs [Modelo de alfabetización en emprendimiento digital para jóvenes emprendedores rurales]
51	Modeling the nonlinearity of sea level oscillations in the malaysian coastal areas using machine learning algorithms
52	Adoption of requirements engineering and software testing syllabuses in universities: The malaysian landscape
53	Hardware implementation of beam formed ultrasonic bird deterrent system
54	Water adsorption characteristics and microcalorimetric studies of MOF-5 and MOF-199 synthesized using "green" sol-gel
55	Hydrothermal liquefaction of Malaysia's algal biomass for high-quality bio-oil production
56	Simulation and optimization of emitter thickness for indium arsenide-based thermophotovoltaic cell

57	Stacking sequence effects on performance of composite laminate structure subjected to multi-axial quasi-static loading
58	Transition and motion sensing system with nintendo wiimote and infra-red LEDs array
59	Assessment of net energy metering on distribution network losses
60	Comparative high-K material gate spacer impact in DG-finfet parameter variations between two structures
61	Effects of growth temperatures on the structural and optoelectronic properties of sputtered zinc sulfide thin films for solar cell applications
62	Performance of a triple cantilever hybrid energy harvester (TCHEH) based on the triboelectric surface modification
63	Design analysis of web-based furniture marketing information system
64	Application design for determining suitable cosmetics with the facial skin type using fuzzy logic approach
65	Deposition of CdS Thin Film by Thermal Evaporation
66	Applications of structural equation modelling (SEM) in business management research
67	Examining the impact of MnO2 and CeO2 on mechanical properties, degradability, and the microstructure of Zirconia
68	Review of Substation Grounding System Behavior under High Frequency and Transient Faults in Uniform Soil
69	Resource recovery from waste coffee grounds using ultrasonic-assisted technology for bioenergy production
70	Towards the adoption of smart manufacturing systems: A development framework
71	Elucidating the role of interfacial MoS2 layer in Cu2ZnSnS4 thin film solar cells by numerical analysis
72	Self-referencing optical intensity sensor based on radio-frequency spectrum interrogation
73	Xbrl adoption: An examination on the malaysian business reporting system (MBRS)
74	A novel hybrid evolutionary data-intelligence algorithm for irrigation and power production management: Application to multi-purpose reservoir systems
75	What can economists and energy engineers learn from thermodynamics beyond the technical aspects?
76	Analysis of probability density functions in existing no-reference image quality assessment algorithm for contrast-distorted images
77	Comparing the Accuracy of Hierarchical Agglomerative and K-means Clustering on Mobile Augmented Reality Usability Metrics
78	Solution for Information Overload Using Faceted Search-A Review
79	Investigation of wind energy generation by moving vehicles in Uniten
80	Computernumerically controlled machine to draw text on ardunio-based acrylic board
81	Design and development of high-accuracy machine for wire bending
82	Development of a control system for a domestic grid-connected wind turbine
83	Implementation of lean manufacturing principles in a vertical farming system to reduce dependency on human labour
84	Sustainable procurement and corporate sustainability performance: The moderating role of organisation age

85	Physiochemical properties evaluation of Calophyllum inophyllum biodiesel for gas turbine application
86	Optimization of 16 nm DG-FinFET using L25 orthogonal array of Taguchi statistical method
87	Expanding trilogy-based headmaster leadership: A conceptual framework
88	Consumer purchasing behaviour of emotional design in e-commerce
89	An overview of solar photovoltaic panels' end-of-life material recycling
90	Evaluation of Convolutional Neural Network based on Dental Images for Age Estimation
91	Effect of poly(ethylene-co-vinyl acetate) additive on mechanical properties of maleic anhydride-grafted acrylonitrile butadiene styrene for coating applications
92	Exploring the perspective of health and well-being among orang asli: An evaluation of jakun
93	Study on the blood glucose management with controlled goal feed in Malaysian critically ill patients
94	Carbon Dioxide Sequestered Concrete
95	Cyber vulnerabilities in smart grid and safety measures for energy meters in advanced metering system and smart meter communications
96	Clarifying the value relevance of voluntary carbon reporting: The case of Malaysian carbon-intensive industries
97	Comprehensive Review of Wind Energy in Malaysia: Past, Present, and Future Research Trends
98	Novel load management for renewable generation sources/battery system through cut energy expenditure and generate revenue
99	Identifying diseases and diagnosis using machine learning
100	Design of portable industrial automation education training kit compatible for IR 4.0
101	Influence of native plant species on substrate moisture content behaviour within extensive green roof system
102	Development of solar powered water treatment device (SWAD) prototype
103	Smart meters for smart cities
104	The preferred Lingua Franca in inter-racial communication: Are non-Malay UNITEN students more comfortable using Malay or english with the other non-Malays?
105	UNITEN Smart Attendance System (UniSas) Using Beacons Sensor
106	Effect of Laminate Properties on the Failure of Cross Arm Structure under Multi-Axial Load
107	Forecasting particulate matter concentration using linear and non-linear approaches for air quality decision support
108	Building Energy Efficiency (BEE): Conventional and unconventional techniques
109	Enterprise architecture adoption issues and challenges: A systematic literature review
110	Evaluation of the thermal performance of hybrid nanofluids in pulsating heat pipe
111	GIS based novel hybrid computational intelligence models for mapping landslide susceptibility: A case study at Da Lat City, Vietnam

112	Performance of saw and wp method in determining the feasibility of motorcycle engineering workshop for competency test of vocational high school student
113	Linking Bayesian Network and Intensive Care Units Data: A Glycemic Control Study
114	Application design of catfish species specification
115	Overview of multi-wavelength laser generation techniques
116	Utilizing the internet of things (IoT) to develop a remotely monitored autonomous floodgate for water management and control
117	Methods for the direct synthesis of thioesters from aldehydes: a focus review
118	STAR protocol for critically ill patients in Malaysia: ICU staff survey and human factor assessment
119	I-V performance analysis of flexible back Illuminated Dye Sensitized Solar cells (DSSCS) with various platinum catalyst contents
120	A review on modeling of flexible deformable object for dexterous robotic manipulation
121	Implementation and design of an autonomous residential DC nano-grid
122	Building information modelling (Bim) for estimation of heat flux from streetscape material
123	Development of environmental accounting and reporting practices of listed companies in Malaysia
124	Integration of renewable energy sources and their power management strategies â€" A review
125	Fluid/structure Interaction Numerical Study on the Mechanical Integrity of Water Dam Reservoir Banks
126	Best quality tomato selection by supply chain strategy for renewable energy
127	Artificial intelligence projection model for methane emission from livestock in Sarawak
128	Numerical study of the effect of flow on bottom outlet of dam
129	Recycled carbon fibre/Bi2Te3 and Bi2S3 hybrid composite doped with MWCNTs for thermoelectric applications
130	Leaf classification using local binary pattern and histogram of oriented gradients
131	The impact of corruption on environmental quality in the developing countries of ASEAN-3: The application of the bound test
132	Effect of GDP with respect to the nominal and real GDP of India: 2014-â€˜15 [Efecto del PIB con respecto al PIB nominal y real de la India: 2014-â€˜15]
133	Urban Flood Depth Estimate with a New Calibrated Curve Number Runoff Prediction Model
134	Intelligent maintenance prioritization and optimization strategies for thermal power plant boilers
135	Modelling of population density in urban cities using VIIRS night time light data
136	Impact of dc-sputtered mo interlayer on the structural and compositional properties of cu2znsns4 (CZTS) thin films on flexible mo substrates
137	Sampling-based online motion planning for mobile robots: utilization of Tabu search and adaptive neuro-fuzzy inference system
138	Renewable energy (RE) and theory on business sustainability: Malaysia policy development
139	Image classification using deep neural networks for malaria disease detection

140	Evaluating the travel demand using E-bike on campus
141	Numerical Simulation on the Statics Deformation Study of Composite Cross Arms of Different Materials and Configurations
142	Long term load forecasting using grey wolf optimizer - artificial neural network
143	Enhancement of application model for substation site selection
144	Red lentil (Lens culinaris) extract as a novel natural coagulant for turbidity reduction: An evaluation, characterization and performance optimization study
145	Salsa20 based lightweight security scheme for smart meter communication in smart grid
146	Web-based information system of psychological test employee acceptance
147	Effects of acids pre-treatment on the microbial fermentation process for bioethanol production from microalgae
148	Cooperation between the European Union and the Eurasian Union
149	Effect of optimal multi-DG siting and sizing in transmission system using hybrid optimization technique for voltage control
150	Service quality measure and customer satisfaction towards prepaid meter in facilities management at Malaysia
151	Adaptive neuro-fuzzy controller for grid voltage dip compensations of grid connected dfig-wecs
152	Bioassay-Guided Isolation and in Silico Study of Antibacterial Compounds From Petroleum Ether Extract of Peperomia blanda (Jacq.) Kunth
153	Norm-based behavior regulating technique for multi-agent in complex adaptive systems
154	CFD analysis of slipstreaming and side drafting techniques concerning aerodynamic drag in nascar racing
155	Feasibility study of renewable energy using levelized cost energy
156	Insulin sensitivity and blood glucose level of sepsis patients in the intensive care unit
157	The effect of titanium oxide and hydroxyapatite on the mechanical properties of wollastonite
158	Techno-economic optimization of grid-connected photovoltaic (PV) and battery systems based on maximum demand reduction (MDRED) modelling in Malaysia
159	Liquidity and profitability of oil and gas industry in Malaysia
160	Simulation of alkali-silica reaction model in a concrete gravity dam at the macroscale and mesoscale
161	Quality Challenges in Internet of Things-based Services Implementation: An Exploratory Study
162	Optimal reactive power control using compensating capacitor based on artificial immune system
163	Fast prediction of angle stability using support vector machine and fault duration data
164	Spatio-temporal analysis of environmental noise in institutional area
165	Emerging sustainable solutions for depollution: Geopolymers
166	Intelligent optimization systems for steam boiler maintenance: real case study
167	Photovoltaic Array Reconfiguration System for Maximizing the Harvested Power Using Population-Based Algorithms

168	Adjustable autonomy: a systematic literature review
169	Revisiting the social cost of carbon after INDC implementation in Malaysia: 2050
170	Exploring the perspective of health and well-being among orang asli: Case study of Jakun
171	Optimal techno-economic design of standalone hybrid renewable energy system using genetic algorithm
172	Similarity Search Techniques in Exploratory Search: A Review
173	Preliminary quantitative feasibility analysis of proposed Thorium-based nuclear reactor
174	Mechanical properties of polypropylene/kenaf composites filled montmorillonite
175	Design of the goat/sheep holding cage slaughtering system (Cage for animal slaughter): Innovations and prospect
176	Efficient Implementation of 2D Barcode Verification Algorithm for IoT Applications
177	Impact of social compliance on employee motivation: An empirical evaluation
178	Characterization studies of biopolymeric matrix and cellulose fibres based composites related to functionalized fibre-matrix interface
179	A systematic inspection into the criteria of lecturer performance in educational domain
180	ASEAN power grid 20 years after: An overview of its progress and achievements
181	A comprehensive defect study of tungsten disulfide (WS2) as electron transport layer in perovskite solar cells by numerical simulation
182	The problem of the organization of socio-cultural environment for adaptation and development of a student-migrantâ€™s bilingual identity in the conditions of the russian higher education
183	Investigation on the effects of heat sink on the performance of thermoelectric generator for human body heat harvesting
184	Carbon footprint assessment for academic institution: A UI greenmetric approach
185	E-government of village empowerment
186	Assessing environmental education through KBSM social sciences subjects: Three case studies
187	Validating the dynamic relationship between technological innovation and economic growth in Malaysia
188	Future fuels for environmental sustainability: Roles of computing
189	Flood insurance rate map for non-structural mitigation
190	Synthesis of multiwall carbon nanotube with fly ash in the production of desired green concrete
191	Examining features and critical success factors of shared services in higher learning institutions
192	A review on water demand analyses, provisioning service and cultural service from ecosystem of kenyir lake, terengganu, Malaysia
193	Comparative analysis of reservoir sediment inflow forecasting using RUSLE-SDR, rainfall â€“ runoff-sediment discharge rating curve (RR-SRC) and SWAT
194	Design and fabrication of mechanical power generation systems using footsteps
195	Usability Evaluation of Confirm-A Learning Tool Towards Education 4.0

196	High mobility and transparent ZTO ETM prepared by RF reactive co-sputtering for perovskite solar cell application
197	The effect of multi-walled carbon nanotubes-additive in physicochemical property of rice brand methyl ester: Optimization analysis
198	Dehydrogenation of cyclohexanol to cyclohexanone over nitrogen-doped graphene supported cu catalyst
199	Data mining techniques for transformer failure prediction model: A systematic literature review
200	Business Zakat conditions and their relationships with accounting principles: An exploratory study
201	Mobile E-commerce website for technology-based buying selling services
202	Examination of significant factors influencing response time of customer complaint based on analytics method
203	Study and Analysis the Mechanical Designing Process of Factor Attributes towards the Propose Dewatering Devices in Wastewater Industry
204	External condition to eco-behaviours in Melaka Green city
205	Tensile properties of poly lactic acid (Pla)â€" tungsten trioxide (wo3) nano composites for 3d printing process
206	The best of village head performance: Simple additive weighting method
207	Pipeline scour rates prediction-based model utilizing a multilayer perceptron-colliding body algorithm
208	Design and prototyping of a motorized legged robot with klann linkage mechanism
209	Factors to consider when designing a virtual environment to treat stress
210	Toward optimum topology protocol in health monitoring
211	Harmonic current classification using hybrid FAM-RBF neural network
212	Design of a small patch antenna at 3.5 GHZ for 5G application
213	Hybrid data regression model based on the generalized adaptive resonance theory neural network
214	Tacit knowledge in software testing: A systematic review
215	Chemical composition of melaleuca cajuputi powell
216	Smart health informatics system
